

As the business world moves its focus to the digital world, having the right technology in place can mean life or death to a company. At SKL Services Inc., we are partnered with the leader in IP transport technology to help you stay one step ahead of the competition.

The advantages of SKL Services Inc., a Level(3)Enabled SM Partner let you stand side-by-side with one of the world's largest wholesale network providers - a proven, reliable partner committed to your success. Through SKL Services, Inc. you get the services and programs you need for delivering next-generation network solutions to your customers. From IP and voice services to virtual private networking and colocation, SKL Services, Inc. and Level 3 provides a suite of proven networking solutions you can rely on to solve any customer need.

With SKL Services Inc. and Level 3, you gain access to a network infrastructure that provides national coverage, operational excellence, and an unsurpassed quality of service. We can help position you for the future by providing the IP-enabled voice and data services that your customers demand. The time is right to take your service to the next level.

SKL Services, Inc., Colocation Services Enabled by Level 3

SKL Services, Inc. Level(3)EnabledSM colocation services provide flexible choices for space and connectivity in a highly controlled, carrier-neutral environment.

More Than Just a Data Center

SKL Services, Inc. Colocation facilities enabled by Level 3 are unique in that they incorporate more than mere Internet connectivity. They act as gateways to Level 3's premier communications network, as well as to numerous other carrier networks.

State-of-the-Art and Secure

Each of these colocation facilities boasts carrier-class space built according to uniform environmental and security standards.

- **Security:** Multi-layer security control procedures, biometric palm readers, and closed-circuit video monitoring
- **Power:** Uninterruptible AC and DC power solutions that are flexible and upgradeable — meeting all types of customer needs
- **Cooling:** HVAC redundant design with under-floor air distribution for maximum temperature control
- **Fire Suppression:** Smoke detection system above and below raised floor; double-interlock, pre-action, dry-pipe fire suppression
- **Overhead Cable Management and Ladder Racking:** Provides easy access to all cabling while minimizing obstructions from under the raised flooring

Broad Coverage

SKL Services, Inc. offers Level(3)EnabledSM colocation service in 28 U.S. cities, including Atlanta, Baltimore, Boston, Chicago, Cincinnati, Dallas, Denver, Detroit, Houston, Los Angeles, Long Island, Miami, New York City, Newark, Oakland, Orange County, Orlando, Philadelphia, Phoenix, San Diego, San Francisco, San Jose, Seattle, St. Louis, Stamford, Tampa, Washington, D.C., and Weehawken.

Pre-Configured and Customized Options

SKL Services, Inc. offers a range of flexible options that address a wide variety of customer needs.

- *Cabinets:* Pre-built colocation cabinets offer pre-configured power and can be installed in days.
- *Racks:* Flexible rack configurations within 100- or 200-square-foot suites.

Field Services

Level 3's world-class field service organization helps satisfy your key network maintenance requirements. Available around the clock, technicians are ready for dispatch in colocation facilities. Companies can reduce costs by leveraging their network provider's internal staffing. Available as an hourly purchase or as a package, the service can free your own technicians of:

- Equipment installation
- Card swaps
- Securing cables and setting switches
- Equipment power-cycling
- Tape backup and swaps
- Reboots of software
- Read and report equipment alarms
- Equipment and circuit testing
- Providing certified latency reports
- Installing cabling
- Attenuating circuits

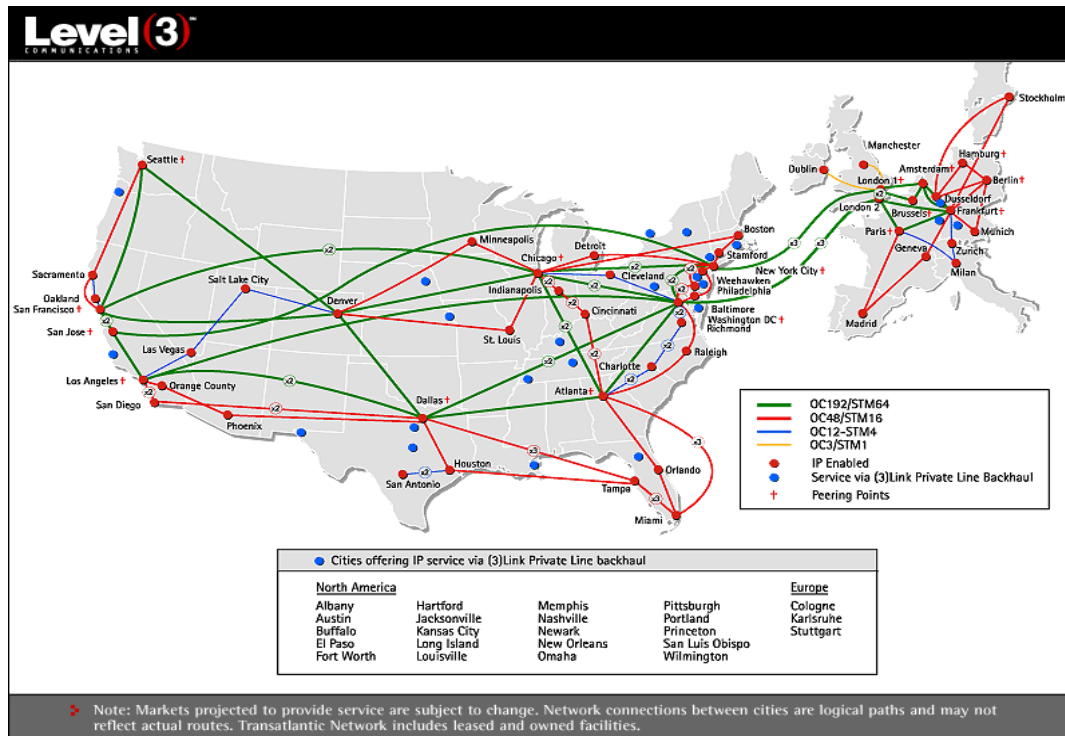

A Proven Colocation Solution

Level 3 is one of the largest providers of colocation service in the world. Hundreds of customers rely on Level 3 to deliver the security, power availability, customer support, and connectivity necessary to support their critical applications. It is a single-source solution for your colocation and networking needs.

SKL Services Inc. has the uniqueness to be flexible. We understand every client has different needs and concerns. We are able to service all colocation and IT outsourcing needs regardless of size or location. SKL Service's partner status with Level 3 gives us the ability to offer and perform services that truly "Take your business to the next level!"
